**Section 1: Introduction**  
This document is a template for a report. It contains several sections that you can use to structure your work. The first section is the introduction, which should provide a brief overview of the topic. The second section is the main body, which should contain the detailed information and analysis. The third section is the conclusion, which should summarize the key findings and provide recommendations. The final section is the references, which should list the sources of information used in the report.

**Section 2: Main Body**  
This section contains the main content of the report. It is divided into several paragraphs, each covering a different aspect of the topic. The first paragraph discusses the background and context of the issue. The second paragraph describes the methods used to collect and analyze the data. The third paragraph presents the results of the analysis, and the fourth paragraph discusses the implications of these results.

**Section 3: Conclusion**  
This section provides a summary of the key findings and conclusions of the report. It should be clear and concise, highlighting the most important points. The first paragraph summarizes the main findings, and the second paragraph provides recommendations for future research and action.

**Section 4: References**  
This section lists the sources of information used in the report. It should be formatted according to the appropriate style guide. The first paragraph lists the primary sources, and the second paragraph lists the secondary sources.

**Section 5: Appendix**  
This section contains additional information that is relevant to the report but does not fit into the main body. It can include tables, figures, and other supporting materials. The first paragraph describes the contents of the appendix, and the second paragraph provides a brief overview of the data presented.

**Section 6: Final Remarks**  
This section provides a final summary and closing remarks. It should reiterate the main findings and conclusions, and express appreciation for the support and assistance provided during the course of the project.

## Тема: Матрици, Транспозитивни Матрици

Всички операции са прави, освен ако не е посочено друго, тогава използвайте **прави** операции.

### 1.1 Транспозитивна Матрица

**Дефиниция**

Матрица **A** е транспозитивна, ако  $A^T = A$ .

**Пример**

Матрица **A** е транспозитивна, ако  $A = \begin{pmatrix} 1 & 2 \\ 2 & 3 \end{pmatrix}$ ,  $A = \begin{pmatrix} 1 & 2 & 3 \\ 2 & 3 & 4 \end{pmatrix}$ ,  $A = \begin{pmatrix} 1 & 2 & 3 & 4 \\ 2 & 3 & 4 & 5 \\ 3 & 4 & 5 & 6 \\ 4 & 5 & 6 & 7 \end{pmatrix}$

Матрица **A** не е транспозитивна, ако  $A = \begin{pmatrix} 1 & 2 \\ 3 & 4 \end{pmatrix}$ ,  $A = \begin{pmatrix} 1 & 2 & 3 \\ 4 & 5 & 6 \end{pmatrix}$ ,  $A = \begin{pmatrix} 1 & 2 & 3 & 4 \\ 5 & 6 & 7 & 8 \\ 9 & 10 & 11 & 12 \\ 13 & 14 & 15 & 16 \end{pmatrix}$

Матрица **A** е транспозитивна, ако  $A = \begin{pmatrix} 1 & 2 & 3 & 4 \\ 2 & 3 & 4 & 5 \\ 3 & 4 & 5 & 6 \\ 4 & 5 & 6 & 7 \end{pmatrix}$  (симетрична матрица).

Матрица **A** не е транспозитивна, ако  $A = \begin{pmatrix} 1 & 2 & 3 & 4 \\ 5 & 6 & 7 & 8 \\ 9 & 10 & 11 & 12 \\ 13 & 14 & 15 & 16 \end{pmatrix}$  (не симетрична матрица).

### Summary

The chart displays the performance of various metrics over time, with a significant peak in the green series around the middle of the period.

The chart shows a clear trend of increasing values for the green series, followed by a sharp decline and subsequent recovery.

The chart is a line graph with a grid background, showing multiple data series over a time period.

The chart includes a legend with a yellow square and a green square, indicating the primary data series.

The chart displays the performance of various metrics over time, with a significant peak in the green series around the middle of the period.

### Key findings

The chart shows a clear trend of increasing values for the green series, followed by a sharp decline and subsequent recovery. The other series remain relatively stable and low throughout the period.

1997-2022

The number of employees in the manufacturing sector has been increasing since 1997, reaching a peak of approximately 4.5 million in 2009. After a sharp decline in 2010, the number of employees has gradually recovered to around 3.6 million by 2022. This trend reflects the overall economic growth and industrial expansion in South Korea during this period.

For the following exercises, it is recommended to use the provided code blocks - unless specified otherwise in the **instructions** (which may require manual changes).

In order to proceed with the exercises, you first need to install the provided dependencies in your code editor - either via terminal or using a package manager like pip or conda. All necessary steps are provided in the **instructions**.

### 3. Exercise 1

**Instructions:** Implement the function `calculate_statistics` in the provided code block.

The function should accept a list of numbers and return a dictionary.

The dictionary should contain the following keys: `min`, `max`, `sum`, `avg`, `std`. The values should be the corresponding statistical measures. The function should also print the results to the console. **Hint:** Use `math` module for standard deviation calculation.
